

Goldgenie unveil the Mother of Pearl iPhone 6 Collection for Summer 2015

Merging nature's beauty with modern technology, Goldgenie unveil the Mother of Pearl iPhone 6 Collection for Summer 2015

As days are getting warmer and the sun is making its presence felt again, thoughts turn to summer, nature and the sea.

Inspired by Nature's beauty, Goldgenie's designers have created an exquisite collection of Mother of Pearl iPhone 6 smartphones for Summer 2015. Glowing with iridescent marbled tones of soft pink, white and grey and meticulously framed in our mirror-like finishes of 24k Gold and Platinum, these iPhone 6 smartphones are a luxurious modern ode to natural elegance and blur the line between technology and jewellery.

The shimmering glow of mother of pearl is offset with a sparkling Swarovski crystal logo and we feel that these phone are the perfect glamorous beachside accessory, bound to look great under a blue sky by the sea!

Goldgenie, the British gold-plating and luxury customisation specialist, pioneered the art of gold-plating a smartphone and the company is known for its innovative take on iPhone customization. Goldgenie craftsmen have a meticulous eye for detail and go to painstaking measures to make sure that each phone customisation has a flawless finish. The brand has an impressive client list of A-List celebrities, including P. Diddy, the Beckhams and Tyrese Gibson and Blue-chip companies such as Viacom, Microsoft and Lexus. Sold online and in luxury department stores such as Selfridges London, Goldgenie's unique interpretation of luxury modern technology continues to meet growing demand from customers around the world.

Goldgenie founder and CEO Laban Roomes stated of this new Mother of Pearl iPhone 6 collection, "I have always been fascinated with jewellery and the notion of treasure. With this collection, we decided to create a very feminine, precious look for the iPhone 6, reflective of the embellished cigarette cases and mirror compacts of the Art Deco period. Due to the natural quality of mother of pearl, each phone is like no other and with this beautiful unique stamp from nature, we have turned the iPhone 6 into a rare treasure."

Presented in a cherry oak display case, they also make an ideal gift for any luxury style aficionado this summer.

The Mother of Pearl iPhone 6 collection is available to order online from Goldgenie's website.
